BUOYANCY AID POLICY

The Festival has its own buoyancy aid policy. It has been established in accordance with the french local authorities and emergency services working on the event.

The buoyancy aid policy is detailed on this following link : <https://ibcpcfrance2026.com/wp-content/uploads/2025/09/BA.pdf>

The organising committee strongly recommends participants bring their own life jackets as only a few hundred will be available on site. Please make sure you bring a PFD that meets the above criteria.

By signing this document, I certify that the Personal Flotation Device I would bring meets the event PFD requirements and the international standard ISO-12 402-5.

If it is an automatic hydrostatic model, I will check before each time on the water that the cartridge is armed and will have spare cartridges in my possession if one has to be used.
